Samsung DS-5000 Digital Handset Range

The stylish Samsung DS-5000 series digital handsets are the perfect choice for crystal clear communications for your business.

The Samsung DS-5000 digital handset range offers a wide variety of easy-to-use, ergonomic terminals, suitable for use with Samsung **Office**Serv communication solutions, placing the power of Samsungs advanced features at your finger tips.

Each handset is designed to maximise the benefits of the system and give each user the appropriate feature set and access levels for their needs. From the cost efficient, easy to operate DS-5007S, to Samsungs DS-5014D and DS-5021D models with their innovative navigation key.

Samsung DS-5000 series display handsets feature a large LCD to display call information like Calling Line Identification (CLI, who is calling) and Direct Dialing Inward (DDI, which can indicate why they are calling). The LCD also helps the users navigate effortlessly through the systems features. In addition, display handsets incorporate programmable soft keys with tri-coloured LED status indicators that can be used for speed dialing, extension status, as well as one-touch feature access keys.

Samsung complements your professional image while delivering features and the options that help you work faster and smarter.

Receptionist

64 Button
